

How are you connected with Redwood Raks, and/or with other arts activities in the community past and present?

Do you have any financial relationship or interest with Redwood Raks? If so, what?

Please list a reference, either personal or professional, and their contact information:

Is there any other information you'd like to include?

If we do not have space on our Board of Directors at this time, would you be interested in volunteering or participating in other ways?
